

DEFENDER™ 2500

Drum Scale

Painted & Stainless Steel Floor Stands
(Optional)

Convenient Portability with Floor Scale Capacity

Defender 2500 Drum Scale is a durable portable floor scale designed for industry applications. Defender 2500 features a powder coated carbon steel treaded platform, built-in front/back access ramps, four load cells, and the new i-DT25P indicator for clear display of weighing results. Includes folding stainless steel cleats to store the 20ft. indicator cord. For quick transport, the base can be rotated on its side using the stainless steel handles and moved around the shop floor using the two integrated wheels.

Unique Features Include:

- Our Drum Scales come in five models with two platform sizes of 30" × 30" and 36" × 36", and capacities from 500 to 2,500 lb, allowing greater flexibility to best suit your weighing needs.
- Platform constructed of powder coated carbon steel which enables the scale to stand up to heavy industrial use. Items can be weighed on treaded platform or across side rails for larger items.
- Low-profile design with front/back access ramps allow pallet jacks, carts and drums to be easily rolled onto the platform. Integrated high-density polyurethane wheels enable convenient portability.
